What's inside

4 short sections. Read it in order, or jump to the part you need today.

01 Your Online Store: The Building Tools

02 What to Sell: Product Sourcing Tools

03 Spreading the Word: The Marketing Tools

04 Understanding Your Customers: The Analytics Tool

Feeling worried about starting to sell online? Relax. The secret is to start simple. You do not need every tool on the internet. You need a small set of free, reliable tools that take you from zero to your first sale.

Think of this as your all-in-one starter kit. We have done the research for you and picked only the free tools that matter, with clear steps for each one.

01 Your Online Store: The Building Tools

First, you need a place to sell. This is your shop on the internet.

- The Tool: An online store builder that works for Nigeria, such as Shopinbos. Rex, the Shopinbos AI store builder, builds your store for you. Payments with Paystack or bank transfer, deliveries and your orders all sit in one place.
- Why It's Essential: A store builder gives you a website where customers can see your products, pay and leave their delivery address. You do not need to know how to code. You also get one link to share on WhatsApp, Instagram, TikTok and Facebook.

Your Action Step:

1. Sign up on Shopinbos (free to start; see shopinbos.com/pricing) and let Rex build your first store.
2. Pick a simple design and add your logo and colours.
3. Add your first product, even if it is only a test product for now. Get used to the dashboard.

This first step makes your idea feel real.

02 What to Sell: Product Sourcing Tools

Next, you need something to sell.

- The Tools: Google Trends and verified Nigerian suppliers on Shopinbos. You can also visit markets like Balogun, Trade Fair, Alaba, Onitsha Main Market or Aba (for shoes and bags).
- Why It's Essential: Google Trends shows what people in Nigeria are searching for, so you can check that your idea has buyers. Supplier lists let you look at many products without buying stock first. With dropshipping, the supplier sends the item to your customer after you make a sale.

Your Action Step:

1. Go to Google Trends, set the country to Nigeria and type in a product idea (for example, "shea butter" or "ankara bag").
2. See if interest is growing over time or rising around seasons like Detty December or Eid.

3. Check the Shopinbos supplier marketplace or a market near you to see if the product is available at a good price.

This stops you from spending money on a product nobody wants.

03 Spreading the Word: The Marketing Tools

Now, let us attract your first customers.

- The Tools: WhatsApp Business, social media (Instagram, TikTok, Facebook) and a free email tool (Mailchimp or Brevo).
- Why It's Essential: Social media is free advertising and helps you build a community. WhatsApp broadcasts and email are your direct line to people who already like what you sell.

Your Action Step:

1. Set up WhatsApp Business with your store name, opening hours and catalogue, then create a business account on one social platform.
2. Start a WhatsApp broadcast list of happy customers (only people who saved your number and agreed to updates) and create a free Mailchimp or Brevo account.
3. Add a simple "Get updates and offers" sign-up form to your store's homepage.

Start building your audience from day one.

04 Understanding Your Customers: The Analytics Tool

Finally, you need to know what is working.

- The Tool: Google Analytics, plus the insights inside Meta Business Suite.
- Why It's Essential: It tells you how people find your store and what they do there, for free. This helps you make smart choices instead of guessing.

Your Action Step:

1. Create a free Google Analytics account.
2. Connect it to your store (your store builder's help guide will show you how).
3. Check it once a week to see how many people visited and which pages they liked most.

Your Launch Plan: A Simple Checklist

Do not get lost in the details. Follow this order:

1. Week 1: Foundation. Set up your store and add 3–5 products.

2. Week 2: Marketing. Launch your WhatsApp Business, one social media account and your sign-up form.
3. Week 3: Analytics. Connect Google Analytics.
4. Week 4: Review. Look at your numbers and social insights to see which posts and products people like.

Ready to stop researching and start building? At Shopinbos, we have packed these free tools and step-by-step guides into one free resource. Download our complete “Launch Your Store” Starter Kit to get checklists, video walkthroughs and direct links to all the tools above, so you can start selling with confidence.

SHOPINBOS
