01 · ABOUT

What Shopinbos is

Shopinbos is an AI commerce platform for African businesses. Thousands of sellers build online stores with our AI assistant Chip, and they need reliable products to sell. As a Shopinbos supplier, you list your stock once and sellers across Nigeria order it, either wholesale or dropship.

New buyers

Your products appear in the Shopinbos supplier marketplace, where sellers search for stock every day.

Dropship

Sellers list your products in their stores. When a customer buys, you ship it straight to the customer.

Wholesale

Sellers buy in bulk at your wholesale prices, or ask you for a quote.

Shopinbos is the software in the middle. We bring you buyers, handle checkout, arrange delivery pickups from your door, and split payments so your share goes straight to your bank.

KEY DATES

Supplier registration is open from **22 October 2026**. Shopinbos launches to sellers on **1 November 2026**. Sign up early so your products are live on day one. Shopinbos currently operates in **Nigeria**, and prices are in Naira (₦).

How supplying works

1. **Sign up and tell us about your business**
   What you make or sell, where you're based and your product categories.

2. **Get verified**
   Upload your CAC and product images. Our team checks them, usually within 1–2 business days.

3. **List your products**
   Wholesale price, suggested retail price, minimum order, stock, and whether you offer dropship and wholesale.

4. **Sellers find you**
   Sellers browse the marketplace, add your products to their stores, place wholesale orders or ask for quotes.

5. **You accept and pack orders**
   Accept within the time limit, pack under the shop's label, and a rider collects it at a time you choose.

6. **You get paid**
   Card payments are split at checkout: your share goes straight to your bank, usually the next working day.

Dropship vs wholesale

	DROPSHIP	WHOLESALE
Who buys	The seller's customer, through the seller's store	The seller, for their own stock
Who you ship to	Straight to the customer, under the shop's label	The seller
Quantity	Usually one item at a time	At least your minimum order (MOQ)
Order reference	`DS-XXXXXX`	`PO-XXXXXX`
Time to accept	4 hours	24 hours
Shopinbos commission	6% / 4% / 3% by plan	None on in-app payments
Needs	A signed dropship agreement with the seller	A verified supplier account

Signing up, step by step

Go to **app.shopinbos.com/supplier/signup**. Sign up with your phone number (we send a 6-digit code by WhatsApp or SMS), your email (we email you a 6-digit code, no password needed) or Google.

> **ONE ROLE PER ACCOUNT**
> Each phone number or email can hold one type of account. If you already sell on Shopinbos, use a different phone number or email for your supplier account.

Step 1 · Tell us about your business

- **Business name** (your registered name) and the **name sellers see**
- **Country and city**, and your **business address**
- **What you make or sell:** materials, how much you can make, how long orders take
- **Product categories:** `Fashion & clothing` `Beauty & skincare` `Food & groceries` `Electronics & gadgets` `Home & living` `Kids & baby` `Health & wellness` `Other`

Step 2 · Verify your business

Run the instant CAC check and upload your documents, then tap **Submit for admin review**. Not ready? Tap **Continue without documents**. You can start drafting products, and we'll remind you by email after 1, 3 and 7 days.

What happens next

1. You send your documents for review.
2. The Shopinbos team checks them, usually within 1–2 business days.
3. Once approved, your public page goes live and sellers can order and ask for quotes.

No CAC registration yet?

Business-name registration through Shopinbos is coming soon. It will cost **₦32,000** all-in, including the ₦27,000 CAC fee.

Getting verified

Sellers only trust suppliers they can check. Verification unlocks your full portal and puts your products in front of buyers.

DOCUMENT	REQUIRED?	NOTES
CAC certificate	Required	BN or RC document accepted. A passed instant CAC check helps.
Product images	Required	One PDF or a single clear image of your products.
Tax ID (TIN)	Optional	Boosts your trust score.
Utility bill	Optional	Confirms your address. Boosts your trust score.
Bank account proof	Optional	Bank letter or statement header matching your business name.
Insurance certificate	Optional	Public liability. Unlocks badges.

Files can be PDF, JPG, PNG or WebP, up to 4 MB each. Your identity is confirmed automatically when you set up your wallet with your BVN or NIN. Up to 5 instant CAC checks a day.

Before you're verified

- Draft products (they wait for verification)
- Read quote requests

Once you're verified

- Send products for review and go live
- Reply to quotes, accept and ship orders
- Add team members

Your trust score & badge

Every supplier has a trust score from 0 to 100 that sellers can see. It grows as you complete your profile and deliver well:

WHAT COUNTS	POINTS	WHAT COUNTS	POINTS
CAC verified	+20	Orders completed (2 each)	up to +15
TIN	+10	Rating	up to +15
Utility bill	+10	Response time set	+10
Identity	+5	Delivery success	up to +20
Products listed (1 each)	up to +10	Disputes (each)	-5 (max -15)

Verified suppliers earn a badge: `Platinum 80+` `Gold 60+` `Silver 40+` `Bronze` . Each missed order costs 2 points.

Listing your products

Add products under **Products** → **Add product**, or upload many at once with a CSV file (Supplier Plus and Pro).

FIELD	WHAT TO ENTER
Name & description	Clear name (2–200 characters) and a full description (at least 10 characters).
Category & photos	1 to 10 photos. Good photos sell; Rex can clean them up for you.
Wholesale price	Your price to sellers. Add a "to" price for a range.
Suggested retail price	What you recommend sellers charge their customers.
MOQ	Minimum order quantity for wholesale (1 or more).
Price tiers	Bulk discounts, one per line, e.g. `10-49: 4500`, `50-200: 4000`.
Stock	How many you have. 0 means made to order.
Options	Dropship available · Wholesale (bulk) available · Samples available.
Delivery regions & processing time	Cities or states you serve, and how long orders take (e.g. "2–4 business days").

Product statuses

`Draft` → `In review` → `Live` · `Hidden` · `Needs changes`

Every product is checked by our team before it goes live. If it needs changes, we'll tell you what to fix.

Changes that need review again

Name, description, category, photos, prices, tiers or currency.

Changes that apply instantly

Stock, MOQ, dropship/wholesale/sample options, delivery regions and processing time.

Bulk upload with CSV

On Supplier Plus and Pro, upload up to **500 products** at a time. Columns: `name, description, category, image_urls, wholesale_price, wholesale_price_to, retail_price, moq, stock, dropship, samples, delivery_regions, processing_time`. Products arrive as drafts for you to check.

> **LISTING LIMITS**
> Free: 30 products · Supplier Plus: 500 · Supplier Pro: unlimited.

Dropship orders

When a customer buys your product from a seller's store, you get a dropship order (`DS-XXXXXX`). You're alerted on WhatsApp (or SMS), by email and by push notification.

Accept within 4 hours

You have **4 hours** to accept a dropship order (night hours count). We remind you 60 minutes before the deadline. If you miss it, the order expires, the stock is released, it counts as a missed order, and it may be passed to another supplier with the same product.

The life of a dropship order

`Pending` → `Accepted` → `Shipped` → `Delivered`

Orders can also be `Rejected`, `Cancelled` or `Expired`. If you have to decline, give a reason; the shop sees it.

Packing rules

> **IMPORTANT**
> Pack each order in its own packaging and stick on **the shop's delivery label**. Don't add flyers, your business card or your phone number. The customer belongs to the shop. Never contact a shop's customers to sell to them directly.

Shipping it

- **Rider pickup:** pick a pickup time and a delivery partner collects from you (see section 08). You don't pay for delivery.
- **Deliver it yourself:** you get a 4-digit delivery code from the customer, and you keep the delivery fee in full.
- When shipping another way, add the tracking code.

Missed orders

Missed orders lower your trust score (−2 each) and show up to sellers as a risk. Keep your stock numbers up to date, and set stock to 0 or hide a product when you run out.

Wholesale orders & quotes

Wholesale orders

Sellers can buy your products in bulk (`PO-XXXXXX`). The quantity must be at least your **MOQ**, and the unit price comes from your matching price tier (or your base wholesale price). Stock is reserved when the order is placed.

`Pending` → `Confirmed` → `Processing` → `Shipped` → `Delivered`

- You have **24 hours** to accept a wholesale order.
- After you accept, the seller can pay by card in the app (100% goes to you) or pay you directly against an invoice.
- A seller can cancel while the order is still pending or confirmed.

Quote requests

Sellers who want a custom price send a quote request with the quantity (at least your MOQ), their location and notes. Find them under **Quote requests**.

To reply

Enter a unit price, a message, and optionally a "valid until" date. The seller can accept it and order.

Not a fit?

Pass on it. The seller gets a polite note: "This request is not a fit for us right now."

Quote statuses: `Waiting on you` `Quote sent` `Accepted` `Passed` `Expired`

> **TIP**
> Reply quickly. Your response time shows on your profile and counts toward your trust score.

Delivery & rider pickups

You don't need your own riders. Shopinbos works with verified delivery partners who collect parcels from your door.

Booking a pickup

When an order is packed, choose when a rider should collect it. Pickups run **8am to 7pm** (Lagos time) with at least 60 minutes' notice:

Morning	Afternoon	Evening
9–12	12–4	4–7

You can also pick a custom time up to 7 days ahead.

Who collects your parcel

1. The delivery partner the shop chose at checkout, or
2. One of your own connected delivery partners, or
3. The Shopinbos default partner, or
4. The most reliable verified partner covering your area.

If none is available, our team finds one for you.

Connecting your own delivery partners

Under **Delivery** you can browse verified delivery partners, compare their rates and connect with the ones you trust. Dropship parcels then go with your partners first. Free plan: 2 partners · Plus: 10 · Pro: unlimited. Plus and Pro can use private rate cards.

Delivering yourself

Prefer to deliver yourself? Mark the order as self-delivered. The customer gives you a 4-digit delivery code, and the delivery fee is all yours. Shopinbos takes no commission on delivery fees.

Getting paid

Shopinbos never holds your money. When a customer or seller pays by card, Paystack splits the payment at checkout and your share goes straight to your bank account, **usually the next working day**.

A dropship sale, step by step

`Customer pays the shop's price` → `Paystack splits it` → `Your wholesale price, less commission → your bank`

The seller keeps their markup. Your commission and your share of Paystack's fee come out of your share.

Worked example (Free plan)

ITEM	AMOUNT
Your wholesale price for a handbag	₦20,000
Shopinbos commission (6%)	-₦1,200
Your share before Paystack's fee	**₦18,800**

Paystack's card fee is 1.5% + ₦100 (the ₦100 is waived on payments under ₦2,500, and the fee is capped at ₦2,000). The seller can't price your product below your cost plus fees, so you're always covered.

Set up your Shopinbos Wallet (one time)

1. **Add your bank account**
   Choose your bank and enter your 10-digit account number. We look up the name; tap "Yes, pay me here".

2. **Confirm your identity**
   Your NIN or BVN (11 digits), your name and date of birth. You must be 18 or older. We keep only the last 4 digits.

Accounts that aren't in your name or your business's name are reviewed by our team, usually within a day.

> **NO WALLET YET?**
> Until your wallet is ready, sellers pay you directly and you mark orders as paid under **Earnings**. No commission is taken on those orders, but you lose the protection and convenience of automatic payouts.

Pay on delivery

For pay-on-delivery orders, the rider collects cash from the customer and the shop pays you directly.

Fees & plans

Joining and listing on Shopinbos are free. There's no setup fee and no listing fee. You only pay a commission when you make a dropship sale, and it gets lower as you upgrade.

PLAN	PRICE	FEE*	PRODUCTS	PARTNERS	TEAM	AI CREDITS/MO
Free (Verified) Standard placement, basic analytics	₦0	6%	30	2	3	20
Supplier Plus Boosted placement, full analytics, CSV upload, private rate cards	₦10,000/mo ₦100,000/yr	4%	500	10	10	200
Supplier Pro Priority placement, 2 featured weeks a month, analytics export, follower broadcasts	₦30,000/mo ₦300,000/yr	3%	Unlimited	Unlimited	Unlimited	600

*Of your wholesale price, on dropship sales paid through Shopinbos checkout. Wholesale orders paid in the app and delivery fees carry no commission. Yearly plans cost the same as 10 months (2 months free). Billed through Paystack. Every Shopinbos fee is shown in the app before it applies to you.

Boosts (optional)

BOOST	PRICE
Featured supplier on the sellers' marketplace home	₦3,000 / week
Boosted product in supplier search	₦1,000 / week / product

Each boost runs for 7 days; buy up to 12 weeks at once under **Company profile → Billing & Plan**.

AI credits

You get **50 free credits** when you sign up, plus your monthly plan credits. Extra packs (valid 12 months): 200 for ₦2,000 · 550 for ₦5,000 · 1,200 for ₦10,000 · 3,200 for ₦25,000. Rex uses credits to write product descriptions (1 per product), clean up photos (3), remove backgrounds (3), tag products (1 per 5), translate (1) and auto-reply to enquiries (1 per conversation).

Plan refunds

Monthly plans can be cancelled any time and run to the end of the month (no refunds). Yearly plans get a full refund within 14 days, then a part-refund for unused months.

How sellers find & partner with you

Sellers search the Shopinbos supplier marketplace by product, category and location. Your public page lives at `app.shopinbos.com/suppliers/your-name`.

Dropship agreements

Before a seller can dropship your products, you agree to work together:

1. **The seller calls you**
   They check your stock, by visiting or by video call.
2. **The seller signs the dropship agreement**
   An e-signature that is legally binding under the Evidence Act 2011.
3. **You accept it**
   Under **Buyers** → **Dropship agreements**. Now they can list your products.

Under the agreement, your products must be genuine and carry NAFDAC/SON approval where required. Sellers resell your products as they are (it isn't private label).

> **NEARBY SELLERS**
> Dropship works best locally: a seller can dropship your products when you're within **50 km** of them or in the same city.

What sellers see about you

Sellers see your trust score and badge, rating, response time and a **risk level** (low, medium or high). To keep your risk low:

- Get verified (the biggest factor)
- Set up your wallet
- Add a return policy

- Don't miss or fail to send orders
- Keep your rating above 3.5
- Pay anything you owe on time

Ranking

In the marketplace, featured suppliers and products come first, then Pro suppliers, then Plus, then Free.

Refer & earn

Invite another supplier with your link (`app.shopinbos.com/r/CODE`). When they're verified with 5 approved products, you get **3 months of Supplier Plus or 500 AI credits**, and they get 1 free month plus a featured week. Up to 10 rewards a year; extra rewards at 3, 5 and 10 referrals. Rewards are never paid in cash.

Returns, claims & rules

Your return policy

Add your own return policy (up to 1,500 characters) on your Company profile. If you don't, the Supplier Terms minimum applies.

What you're responsible for

- Take back items that are **wrong, damaged, faulty, not as described or short**, and refund the shop.
- Collect those returns, or pay for them to be sent back.
- Change-of-mind returns are between the shop and the customer, unless your own policy offers them.

Claims & money owed

RULE	DETAIL
Claim window	Shops can claim within **7 days of delivery** (wrong item, damaged, not as described, short delivery, not sent).
Paying a claim	Accepted claims are due within **3 days**.
If it's late	Up to **50%** of each later order payment goes to the shop until it's covered.
7 days overdue	You're paused from new business: shops can't find your products and no new shop can list them. Existing orders continue. The pause lifts once you pay.

Disputes

Shopinbos decides disputes using what the app recorded plus evidence from both sides. Either side can ask for a review at **legal@shopinbos.com**.

Supplier rules at a glance

- Hold a CAC registration and a business bank account in the same name.
- Only list stock you can ship within 3 days, and ship within 3 days.
- Pack under the shop's label, with none of your own marketing inside.
- Never contact a shop's customers to sell to them directly.
- Keep jobs and payments in Shopinbos. Payments arranged outside the app aren't protected.

> **QUALITY**
> Too many returned, late or unsent orders can pause your listings.

The full Supplier Terms are on shopinbos.com/supplier-terms.

Your team & portal

Adding your team

Once verified, add staff under **Team** and give each person a role:

ROLE	WHAT THEY DO
Manager	Runs the account: products, orders, money, settings.
Inventory	Manages products and stock.
Sales	Handles quotes, buyers and wholesale orders.
Support	Answers messages and handles order issues.

Team size: Free 3 · Supplier Plus 10 · Supplier Pro unlimited.

Your portal at a glance

Everything is at **app.shopinbos.com/supplier** and in the Shopinbos mobile app.

PAGE	WHAT YOU DO THERE
Today	New orders, deadlines and what needs your attention.
Orders	Dropship orders and wholesale orders.
Quote requests	Reply to sellers asking for prices.
Delivery	Pickups, your delivery partners and delivery performance.
Products	Add, edit and bulk-upload products.
Inbox	Chat with sellers and delivery partners.
Buyers	Shops selling your products, dropship agreements, contracts, followers, reviews.
Earnings / Wallet	What you've earned, what's owed, bank and ID setup.
Performance	Order value, fulfilment rate, rating, response time, quotes accepted.
Company profile	Logo, cover, workshop photos, return policy, plan, boosts.
Settings / Verification / Team	Notifications (push, email, texts, quiet hours), documents, staff.

Meet your AI helpers

Rex writes product descriptions, cleans up photos and even writes SEO articles for your supplier page.
Peggy answers your questions about Shopinbos any time.

Questions & support

Does it cost anything to join or list?

No. The Free (Verified) plan is ₦0 and listing is free. You only pay a commission on dropship sales.

How long does verification take?

Usually 1–2 business days after you submit your documents.

When do I get paid?

Card payments are split at checkout and usually reach your bank the next working day. Shopinbos never holds your money.

Do I need my own riders?

No. Book a pickup and a verified delivery partner collects from you. You can also connect your own delivery partners or deliver yourself.

What if I run out of stock?

Update your stock straight away (it changes instantly, no review needed) so you don't miss orders.

Can I sell to sellers outside my city?

Yes, for wholesale orders and quotes. Dropship works with sellers within 50 km or in the same city.

Can I also sell on Shopinbos as a seller?

Yes, but use a different phone number or email for your seller account.
